

Class Supply List ©

Class: **artista Software Education** **Series of five 3-hour classes**

Instructors: Kris Smith & Gail Tibbetts

Sewing Tools

Please bring the following to all classes:

Make sure version V4.0V or V5 of the artista software is installed on your computer.

To check your version, run the software. Click on Help, About. On the line right above the OK button you should see something similar to this: V4.0V 3 Feb 2005 (56-2725)

Dongle

External mouse – Please bring one, the touchpad on laptops really makes digitizing a lot more difficult and slower to accomplish.

Bring along a printed copy of the appropriate chapter(s) from the *Mastering Your BERNINA Embroidery Software – New Owners Guide*. The work book is available for download from our website www.threadplay.net. The chapter(s) needed for each class is listed under each class.

Pen and paper for taking notes.

Class Five - Software Level: Editor, Auto-Designer, Designer Plus

Topics: Bonus Programs - Cross Stitch, PhotoSnap, Quilter

Note: PhotoSnap not available in the Editor Version

Printed copy from manual to bring to class: Class 6

Note: You can take these CD's to Office Max/Copy Max, Kinko's, or other copy/print places and have them print the .pdf file for you. If you decide to have a full book printed ahead of time, make sure they use a spiral binder (easier to flip pages and takes less space). Most students prefer to have the first and last page laminated before they put a binder on the book.

Class One - Software Levels: Editor, Auto-Designer, Designer Plus

Topics: Getting Started, editing, and portfolio

Printed copy from manual to bring to class: Class 1

Class Two - Software Levels: Auto-Designer, Designer Plus

Topics: Mirror Merging, Wreath, Kaleidoscope, Lettering & Editing, Buttonholes

Printed copy from manual to bring to class: Class 2

Class Three - Software Levels: Auto-Designer, Designer Plus

Topics: Automatic, Magic Wand, Applique, Block, Blackwork Run, and Manual Digitizing

Printed copy from manual to bring to class: Classes 3 & 4

Note: Class 4 in manual is for Designer Plus software only, but those with Auto-Designer are welcome to stick around and watch the second part of this class.

Class Four - Software Level: Designer Plus

Topics: Special Effects - Gradient fills, color blending, craft stitches, pattern runs

Printed copy from manual to bring to class: Class 5
